Microcirculatory Society call for Award Nominations

The Microcirculatory Society announces the call for award nominations. Nominations are being accepted for the following awards:

**Landis Award
Zweifach Travel Awards
August Krogh Young Investigator Award
Microcirculatory Society Travel Award
Award for Excellence in Lymphatic Research**

For award descriptions and requirements please go to the Microcirculatory Society web page ([http:// microcirc.org](http://microcirc.org)) then to “About the Society”, then to “Society Awards”.

**Final Call for Nominations
DEADLINE: December 1, 2005
Address for All Award Correspondence:
Russell L.Prewitt, Ph.D.
PREWITRJ@EVMS.EDU**

This annual award was established in 1969 to recognize an outstanding investigator in the field of Microcirculation who is in residence in the United States or Canada. The awardee is expected to be an active investigator who has published and continues to provide meritorious research in the field of Microcirculation. The award consists of a certificate and \$2000 to be used at the discretion of the awardee. To nominate an individual for this award, a letter of nomination, describing the nominee's most important work, a current CV, including a list of the nominee's 10 most significant publication from the last 10 years, should be forwarded to the chairman of the awards committee. The award will be presented at the annual meeting and the awardee will be invited to present a brief summary of his or her professional and research career activities.

Benjamin Zweifach Graduate Student Travel Awards

Established in 1998, this award recognizes the outstanding mentoring efforts of Dr. Benjamin Zweifach. These awards are designed to encourage participation in the Microcirculatory Society meeting by young

Benjamin W. Zweifach
1911-1997

scientists in training. Six awards, each of \$500 and a certificate, will be made. To qualify for this award, an applicant must be a first author on an abstract submitted to Experimental Biology 2006 and designated for presentation in one of the Microcirculatory sessions. Individuals may only receive this award one time, and need not be a member of the Microcirculatory Society.

To apply for this award, applicants should forward a letter of recommendation from their mentor to the Charman of the Awards committee. The awards will be announced before the meeting and presented at the Microcirculatory Society Business Meeting. Awardees will be required to present their posters at the Microcirculatory Society Social Hour/Banquet. The awardees will also receive a one year membership to the Microcirculatory Society.

August Krogh Young Investigator Travel Awards

**August Krogh
(1874-1949)
Nobel Prize in Physiology and Medicine
1920**

These awards are intended for Ph.D.s or M.D.s in the early stages of a research career. The purpose of the award is to encourage excellence in microcirculatory research by new, young investigators. Eligibility for this award is limited to recent graduates (less than 3 years after having received a Ph.D., or for M.D., 3 years following completion of a first residency). Four awards, each of \$500 and a certificate, will be made. To qualify for this award applicants must be first author on an abstract submitted to Experimental Biology 2006 and designated for presentation in one of the Microcirculatory Society sessions. Individuals may only receive this award one time, and need not be a member of the Microcirculatory Society. Applicants should also forward a letter of recommendation from their mentor. The awards will be announced before the meeting and presented at the Microcirculatory Society Business Meeting. Awardees will be required to present their posters at the Microcirculatory Society Social Hour/Banquet. The awardees will also receive a one year membership to the Microcirculatory Society.

Microcirculatory Society Travel Award for Outstanding Young Investigator

This annual award is given to reward meritorious research in the field of microcirculation by supporting the recipient's visits to laboratories abroad. It is intended for a researcher who is a resident of the United States or Canada and has received a Ph.D. or completed a first M.D. residency within 12 years of the deadline. A letter of nomination describing how the award will benefit the nominee's career and advance knowledge of microcirculation, a brief tentative itinerary including the laboratories to be visited, and a current CV should be submitted to the Chairman of the Awards committee prior to December 1, 2005. The award consists of a certificate and \$5000 to help defray travel costs associated with the trip. The recipient is expected to present a brief report of their trip to the Microcirculatory society membership at the annual banquet or business meeting.

Microcirculatory Society Award for Excellence in Lymphatic Research

This relatively new award was made possible by a generous contribution of the former North American Society of Lymphology. The award is designed to recognize meritorious research of the lymph, lymphatics or interstitium by a young investigator within 10 years of obtaining a Ph.D., M.D., or bona fide equivalent degree. A letter of nomination describing their research efforts, a manuscript suitable for submission to Microcirculation and a current CV should be submitted to the Chairman of the Awards Committee by December 1, 2005. The manuscript of the awardee will need to be submitted to the Society journal Microcirculation. The award to be given at the Annual Meeting of the Microcirculatory Society, consists of certificate and \$500 to be used at the discretion of the awardee.
