Department of Physiology
New York Medical College
Valhalla, NY

Postdoctoral/Junior Faculty Position

A large multidisciplinary laboratory is in search of a post-doctoral fellow or a faculty member at the instructor/assistant professor level who is trained in the study of microcirculatory imaging and physiology. This person would be a member of a team of scientists who are interested in cardiovascular function in diabetes. The main task of this person would be to study micro-hemodynamics, intravascular rheology, and up-regulation of adhesion molecules in mice/rat models of diabetes. A fully-equipped microcirculatory physiology laboratory will be available. Adequate start-up funds will also be available for a junior faculty position. Salary will be commensurate with rank and experience. Joint appointment in a basic science laboratory will also be possible. The latest start date will be July 1, 2006. Intersted candidates should contact:

Sanjiv Kaul, MD
Chief, Cardiovascular Division
Oregon Health & Sciences University
UHN62
3181 SW Sam Jackson Park Road
Portland, Oregon 97239
